

The diagram shows a square sticker template with a white background. It is enclosed by a red dashed border representing the final cut. Inside this, there is a blue dashed border representing the safe area. The text explains the purpose of these zones: the safe area prevents trimming of important content, the trim zone is the actual cut, and the bleed zone extends to the edge for a full print.

SAFE AREA

DO NOT place important texts or images beyond the blue dotted area to prevent trimming.

TRIM

This is the actual cut of the final design.

BLEED

Extend your artwork to the edge of this template if you want your design to extend to the edge of your final prints. We require 1/8" bleed all around.

3.5" X 3.5" STICKER
